HATFIELD TOWNSHIP

DRY CLEANING PLANT PERMIT APPLICATION PROCEDURES

A Dry Cleaning Plant Operational Permit is required to engage in the business of dry cleaning or to change to a more hazardous cleaning solvent used in existing dry cleaning equipment. Please note that additional operational or construction permits may be required.

<u>PART I</u> – <u>Location of Property</u> – Complete address including city, state and zip code must be provided on all applications.

PARTS II thru VIII – Complete every section.

<u>**PART IX**</u> – <u>Sign and date application</u>. If property resident is not the owner of the property, a notarized statement indicating the owner's approval of the proposed construction must be submitted with the application. Provide phone numbers for property owner/resident and contractor. Contractors making application must be registered with Hatfield Township annually.

ADDITIONAL INFORMATION

FEES – Permit fees must be submitted with the permit application.

<u>REVIEW</u> – The application plans will be reviewed by the Fire Marshal's Office for compliance with the codes of Hatfield Township and the Pennsylvania Uniform Construction Code.

<u>PERMIT GRANTED</u> – <u>If approved, the permit will be processed and issued within thirty (30) business days.</u> Work may not start until a permit has been approved and granted. The permit cards are to be displayed so as to be visible from the street.

NOTES: All Subdivision and Land Development approvals must be complete before submitting Dry Cleaning Plant permit applications.

Requirements for the Submission of Dry Cleaning Plant Plans for Review

Permit application package shall include:

- 1. A fully completed Dry Cleaning Plant Permit Application.
- 2. A submittal package and set of scale CAD plans which shall include:
 - 2 copies of the hazardous materials inventory and maximum daily quantity on site for all flammable and combustible liquids in excess of the amounts listed under required operational permits in Chapter 1 of the latest edition of the International Fire Code;
 - 1 copy of the manufacture/supplier material safety data sheet (MSDS) for each material listed in the hazardous materials inventory;
 - 1 complete set of construction drawings (if applicable);
 - 1 set of manufactures specifications and operational instructions for all dry cleaning equipment;
 - 3 sets of floor plans for the facility which indicate the use of all areas and rooms, the location of all pertinent hazardous materials, control areas and storage/container types and arrangements;
 - 1 site plan indicating the location the facility, all paved areas and fire lanes;
 - All plans shall be 18" X 24" minimum and 24" X 36" maximum in size;

Failure to provide all of the above information will result in a delay in the approval of the permit application
